**18-Oct-06**  
**Minutes**

**In Attendance:** Dan Batsie; Scott Smith, Jay Bradshaw; Kim McGraw, Monica Theroux, Rick Petrie, Tish Tanski, Mary Becker, Chris McCarthy, Steve Diaz

<b>Topic</b>	<b>Discussion</b>	<b>Action(s)</b>
1) 12 Lead Program	Batsie presented the 12 lead program thus far developed and suggestions by Gus Lambrew. Agreement that Dr. Lambrew's suggestions should be adopted and discussion around the goal of the program. This is meant to help us meet a need but perhaps at some point develop an advanced 12 lead program for those who wish it. Feedback given to Batsie as presentation progressed, and he will recirculate the program with the updates and all feedback to Batsie-- if Dr. Lambrew is Ok with these updates, Batsie will begin beta testing. This looks to be a 3-4 hour program. Suggestion to build into the program the ongoing suggestions of education, online refreshers, local physician help, local larger ambulance services to help, and to dispel any notion of shame with updating.	Batsie will take comments and update and Bradshaw will recirculate the program via disc. Then to beta testing per Batsie.
2) Review of STEMI Protocol and Data Collection Manual	Distributed by McCarthy, with some review/vetting by group present. Please give feedback and suggestions to Chris McCarthy.	Give feedback on suggestions on this handout to Chris McCarthy. Also give feedback on the circulated ad.
3) Next meeting November 15 at 3 pm at Maine EMS	None	None
